

Subject: Letter of Appreciation - Qantur Technologies Pvt. Ltd.

Karman Drones is a leader in AI-driven autonomous drone technology, focusing on innovative solutions that revolutionize the drone industry. Our commitment to cutting-edge technology and insightful operations has been significantly enhanced through our association with Qantur Technologies Pvt. Ltd.

Qantur Technologies has been instrumental in the successful implementation of Ansys software for our projects. **Their expertise in FEA and CFD has been invaluable in helping us validate our drone designs and optimize performance.** Their team of highly skilled application engineers provided exceptional support, ensuring that our team fully understood the capabilities and applications of the Ansys software.

We are particularly impressed with the extensive training sessions conducted by Qantur Technologies. These sessions have significantly improved our engineering team's proficiency in simulation techniques, including geometry implementation, meshing, and modelling. The knowledge gained from these training sessions has empowered our team to leverage Ansys software to its fullest potential, thereby enhancing our design and analysis processes.

We are extremely pleased with the support and services provided by Qantur Technologies and would highly recommend them for any Ansys software implementation and training needs.

Sincerely,

Pavan Shetty

Head of operations
