TO WHOM IT MAY CONCERN

NTF Group has over three decades of experience as a world class end-to-end mobility solution provider from design & engineering to manufacturing and customer services for the transport sector mainly automotive industry, commercial & agricultural vehicles, wind energy and locomotives.

As a part of our expansion within our group and products, services and know how, NTF has invested in ANSYS software through **Qantur Technologies**. ANSYS software is being used by NTF within its group in **NTF (India) Pvt Ltd** for development & validation of various automotive components for developing comprehensive solutions undertaking styling, designing, engineering, prototyping & manufacturing aspects.

We appreciate the team at **Qantur Technologies** for listening to our needs and help us figure out exactly what we needed. Your commitment to make our product development a success continuously exceeds our expectations. We also want to thank you for your **patience** and **professionalism** especially while we had some internal deadlines with our client, you made the process run seamless.

We also want to thank Qantur Technologies and its technical team for the support work done on our key projects which involved in depth FEA analysis of our various key automotive assemblies.

The key factors for choosing to work with Qantur Technologies were your software expertise, dedication to our needs and requirements, as well as your ability to deliver the projects in COVID- 19 conditions seamlessly. It gives us a pleasure to appreciate and recommend your implementation & consulting services you provide.

We look forward to working with you and your team on our other product development projects.
